Excisions: Excisions Recommended But Not Made

Reasons for excisions:

One excision is required to remove the trailer *The Anal Whore Next Door*. The trailer is an extreme parade of close-up images of women's buttocks and genital areas, interspersed with sequences of forcible fellatio. The manner of presentation degrades, dehumanises and demeans women participants and women more generally.

**Summary of reasons
for classification:**

The DVD *Cheek Freaks DVD Extras* is classified as:
Objectionable.

The DVD contains components largely made up of explicit depictions of sexual activity. The trailer *The Anal Whore Next Door* consists of a barrage of close-up images that reduce women to a set of interchangeable orifices for penetration. With this trailer included, male viewers, in particular, are encouraged to gain sexual gratification from watching a contrived spectacle that degrades, dehumanises and demeans the women participants and women more generally. The availability of the DVD in this form is likely to be injurious to the public good. An excision was offered to remove the likelihood of injury and to make the DVD available to an adult audience. In this instance the distributor declined to make the required excision to the DVD.

The classification of this publication interferes with the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. However, given the nature of the material, this decision is reasonable and demonstrably justified. It reflects the concern of a free and democratic society to limit the availability of publications that deal with matters of sex in a manner that is likely to be injurious to the public good.
